

Syllabus for
NUR 409—Patterns of Community Health Nursing
3 Credit Hours
Fall 2021

I. COURSE DESCRIPTION

Provides a beginning study of the principles of community health nursing theory and Christian, professional, and social values for professional nursing practice. Synthesizes professional practice issues in caring for individuals, families, and groups in diverse community environments.

Prerequisites: NUR 316, 318, 303.

Corequisites: NUR 407, 408, 434.

II. COURSE LEARNING OUTCOMES

The purpose of this course is to enable the student to do the following:

- A. Appraise the principles and values of professional nursing practice in community health environments.
- B. Identify local, state, national and global professional practice issues in caring for individuals, families, and groups in diverse communities.
- C. Utilize evidence- based practice to develop an appropriate health program proposal for an identified community.
- D. Implement culturally-sensitive therapeutic nursing interventions to provide safe, quality nursing care for individuals, families, communities and populations within the context of a global society.

III. STUDENT LEARNING OUTCOMES FOR THIS COURSE

See course lesson plan for weekly student learning outcomes.

IV. TEXTBOOKS AND OTHER LEARNING RESOURCES

A. Required Materials

1. **Textbooks**

American Psychological Association. (2020). *Publication manual of the American Psychological Association* (7th ed.).
<https://doi.org/10.10370000165-000>
ISBN-13: 978-1-4338-3216-1

Jezeq, K. (Ed.). (2014). *Oral Roberts University Anna Vaughn College of Nursing student handbook: 2014–2015*. Tulsa, OK: Oral Roberts University.

Lundy, K.S., & Janes, S. (2016). *Community health nursing: Caring for the public's health* (3rd ed.). Jones & Bartlett Learning.
ISBN-13: 978-1449691493

2. **Other**

Students are expected to use multiple resources, including technology such as electronic computer databases to find materials related to course content.

B. **Optional Materials**

1. **Textbooks**

Clark, C.C., & Paraska, K.K. (2014). *Health promotion for nurses: A practical guide*. Burlington, MA: Jones and Bartlett Learning, LLC.

ISBN-13: 9781449686550

Leininger, M. M., & McFarland, M. R. (2006). *Culture care diversity and universality: A worldwide nursing theory* (2nd ed.). Boston: Jones and Bartlett. ISBN-13: 9780763734374

Purnell, L. D. (2013). *Transcultural health care: A culturally competent approach* (4th ed.). Philadelphia: F.A. Davis Company.

ISBN 9780803637054 (print)

Spector, R. E. (2013). *Cultural diversity in health and illness* (9th ed.). Upper Saddle River, NJ: Pearson Prentice Hall. ISBN-13: 9780132840064

V. **POLICIES AND PROCEDURES**

A. **University Policies and Procedures**

1. Students and faculty at Oral Roberts University must adhere to all laws addressing the ethical use of others' materials, whether it is in the form of print, electronic, video, multimedia, or computer software. Plagiarism and other forms of cheating involve both lying and stealing and are violations of ORU's Honor Code: "I will not cheat or plagiarize; I will do my own academic work and will not inappropriately collaborate with other students on assignments." Plagiarism is usually defined as copying someone else's ideas, words, or sentence structure and submitting them as one's own. Other forms of academic dishonesty include (but are not limited to) the following:
2. Final exams cannot be given before their scheduled times. Students need to check the final exam schedule before planning return flights or other events at the end of the semester.
3. Students are to be in compliance with University, school, and departmental policies regarding the Whole Person Assessment requirements. Students should consult the Whole Person Assessment handbooks for requirements regarding general education and the students' majors.
 - a. The penalty for not submitting electronically or for incorrectly submitting an artifact is a zero for that assignment.
 - b. By submitting an assignment, the student gives permission for the assignment to be assessed electronically.

B. **School of Nursing Policies and Procedures**

1. The current *ORU AVSON Student Handbook* contains a complete list of School

of Nursing policies.

2. Attendance

- a. Orientation to nursing classes occurs the day prior to the first official day of class for the university. Attendance is mandatory.
- b. The last day for students to add nursing classes is the first Monday following the university's date for the beginning of classes.
- c. Students are expected to punctually attend and be prepared for all lectures, exams, simulated laboratories, and clinical practicums. In the event of an absence students must be aware that the following will apply:

Credit hours per class time	Number of absences not resulting in penalty	Grade Deduction
3	3	2% - starting with 4 th absence
2	2	3% - starting with 3 rd absence
1	1	4% - starting with 2 nd absence

Each additional absence will equate to a 1% deduction to the overall course grade.

Understand that 3 tardies equal an unexcused absence and excessive absences (approved or unapproved) will deny credit for the course. Tardy is defined as arriving to class late or leaving class before dismissed without prior approval from instructor.

- d. The Associate Dean of the School of Nursing may request administrative –excuses for absences from courses or Chapel when conflicts exist with scheduled learning experiences within the School of Nursing.
- e. Students are to discuss administratively excused absences with the course coordinator and confirm plans for meeting course objectives 48-business hours **prior to** the scheduled class, lab, or clinical.
- f. A student who misses, or is excused from clinical due to illness, either –acute or chronic, or who has been hospitalized for any reason, must –provide evidence of medical clearance to return to the clinical setting. Return to clinical is also dependent upon safety concerns, agency policy and any agency restrictions. Clinical make-up is arranged only in the event of an excused absence. However, limited clinical slots are available during the academic semester; thus, it may not be possible to arrange clinical make-up during the normal semester time. All course clinical hours must be completed for a student to receive a passing grade in clinical. A passing grade in clinical is required to pass the clinical nursing course.

- g. Make-up of exams is arranged only in the case of an excused class absence. Students must speak personally to the course coordinator prior *to* the test period if they are unable to take a scheduled exam. Absences are excused only for cases of documented illness or other crisis situations.
 - h. Students are required to speak personally to the clinical/sim lab instructors regarding a pending absence in the clinical/sim lab at least —one hour before scheduled times. Due to the complexities of clinical/simulation scheduling, any potential for make-up will require coordination of the course coordinator and faculty. Failure to meet course objectives – including attendance at all class, sim-lab, or clinical experiences will result in failure in the course.
 - i. Students are required to submit a request for clinical/sim lab makeup to —the course coordinator.
3. Clinical Policies

a. ***CPR training: Junior and Senior level students:*** A current training card covering the full academic year must be submitted to the School of Nursing prior to Fall Orientation day (see Appendix C). CPR training is to be the American Heart Association’s Basic Life Support Provider course. Students without evidence of current CPR training from the AHA will not be allowed admission to the dosage calculation exam or to attend clinicals. Proof of current CPR must be given to the course coordinator of your first fall clinical course.

Sophomore level students: Submit a current training card covering the full academic year to the assigned D2L Classroom Dropbox for your Graduation Cohort before Fall Break.

b. ***Immunizations: Junior and Senior level students:*** Students must present evidence that immunizations and tuberculin skin testing are current prior to Fall Orientation day each academic year. The school is contractually obligated to clinical agencies to ensure students are following recommended immunizations. Any student without evidence of current immunizations will not be allowed admission to the dosage calculation exam or to attend clinicals. Proof of immunizations must be provided to the course coordinator of your first fall clinical course (see Appendix C).

Sophomore level students: Documentation of immunization status covering the full academic year will be submitted to the D2L Classroom Dropbox for your Graduation Cohort before Fall Break.

c. ***Drug Screening:*** Clinical agencies also require drug screening for students participating in on-site clinical experiences. Therefore, each student will undergo a drug screen prior to admission to NUR 206, Foundations of Nursing. A drug screen may also be implemented at intervals during the sophomore, junior, and senior years at random intervals or if the behavior of student dictates.

A student who is de-enrolled or misses one semester of clinicals must undergo another drug screen prior to readmission to clinical nursing courses.

Positive results may prevent a student's participation in clinical experiences and may be grounds for dismissal from the nursing program.

- d. *Dosage Exam Policy:* **Junior and Senior level students:** Students must demonstrate proficiency in dosage calculation as evidenced by achievement of at least 90% on a dosage calculation exam administered at the beginning of each semester.

Sophomore level students: Required to demonstrate proficiency in dosage calculation by the date specified in the NUR 206 syllabus before they are permitted to administer medications in the clinical setting.

Students will not be permitted to administer medications in a clinical setting until they achieve at least 90% on the dosage calculation exam.

Students who do not achieve at least 90% on the exam prior to the last day to add classes at the University will be de-enrolled in clinical nursing courses.

- e. *Dosage Exam Procedure:* The Admission, Progression, Graduation, and Awards Committee of AVCON is responsible for preparation and administration of the exams.

There are four levels of exams: junior-level exam Fall and Spring semesters, and senior-level exam Fall and Spring semesters. Blueprints for each level are available prior to administration of each exam.

The exam is administered during the first week of the semester. Students have one hour to complete the exam.

Students are permitted to use calculators but not a cell phone or device with wireless capabilities. Students will receive notice of their grades within 24 hours of the exam.

Students failing the first exam with a score of less than 90% must attend a scheduled review session before being allowed to retake the exam. Student's participation in the review session is a pre-requisite for admission to administration of the second exam. If the student does not pass the retake with a score of 90% or above, the student will not be allowed to progress in the program.

Any student who does not score a 100% on the dosage calculation exam – even if scoring 90% or above – must attend a scheduled review.

- f. Dress code: Professional dress code is in effect for all learning experiences and for all activities within the School of Nursing. Students who are out of dress code when arriving at clinical will be sent home and incur an unexcused clinical absence.

The dress code for clinical experiences designates attire be appropriate to acute care or community settings.

An official current semester Anna Vaughn School of Nursing photo ID with student name must be worn when a student is involved in an off-campus learning experience. No student is to be involved in any clinical learning activity without being identified as an ORU nursing student.

While in the clinical area, a student's hair must be confined away from the face in a manner that prevents contamination. Fingernails must be of modest length and appropriately groomed. No artificial nails. Jewelry, if worn at all, is to be minimal. Earrings must be small posts (no hoops or dangles). No visible body piercings. All tattoos must be covered.

Uniforms are subject to clinical agency policy.

All uniform tops and lab coats must have the AVCON/AVSON logo.

Uniforms must be clean and neatly pressed. Shoes must be clean and polished.

The nursing uniform for **acute-care settings**:

- i. Navy scrubs as specified on uniform price list. No sweatshirts or cardigans are permitted. See hospital student policies for approved outerwear.
- ii. Footwear:
 - Closed toe, closed back, white/navy/black shoe with complimentary trim.
 - ii. No casual shoes such as Keds, Converse, or Toms. (all students)
 - Some clinical agencies may require shoes be made of a solid material (e.g. agencies or units where chemotherapy is administered)

The nursing uniform for **community settings**:

- i. Khaki pants, e.g., Dockers, or dress slacks (NO khaki-colored denim, jeans, painter's or baggy pants, external pockets. No hole-filled jeans.)

- ii. White or navy polo shirt with AVCON/AVSON logo
- ii. White lab coat and/or white/navy knit sweaters with AVCON/AVSON logo as appropriate. **No sweatshirts or cardigans.**
- iii. Footwear:
 - Dark-colored, closed-toe, and closed back leather shoes (all students)
 - Color-coordinated socks with khaki pants or shoes (See Appendix E for prices/specifications of uniforms.)
- g. Travel: Throughout the course of the nursing program, students will have clinical experiences at a variety of agencies throughout the greater Tulsa area and in rural communities of Oklahoma. Students are responsible for personal travel to and from clinical nursing experiences.
- h. Snow policy for clinical travel: Rarely are road conditions so hazardous that faculty and students are unable to travel to clinical agencies for scheduled clinical experiences. However, should such conditions arise, safety of faculty and students takes priority over clinical experiences. If a course coordinator, in discussion with the AVSON Associate Dean, judges that travel would endanger students, the coordinator may cancel the experience and reschedule at a later date. Each course coordinator will initiate notification of clinical instructors and students via the announcement board in D2L or other means.
- i. Professional accountability: Students are expected to prepare for clinical experiences by completing course assignments as designated in course syllabi. A student's failure to adequately prepare for the clinical experience may result in dismissal from the clinical experience that will count as an unexcused clinical absence. Students are permitted to care for patients as long as they demonstrate safe nursing care. Safe nursing care encompasses caring for patients in a safe manner utilizing available resources. This includes, but is not limited to, following rules and regulations of the specific nursing course, AVSON, ORU, and the clinical agency.

4. **Evaluation Procedures**

- a. In order to successfully complete a nursing course, students must achieve at least 70% weighted average on module and final exams. (Quizzes and ATI exam scores are not included in this average.)
- b. Students must achieve a passing grade for clinical experiences and the 70% weighted average on module and final exams in order for paper and project grades to be included in the calculation of the final course score.
- c. The final course grade is calculated using the following grading scale:
 - A=90-100
 - B=80-89
 - C=70-79
 - D=60-69
 - F=59 and below
- d. Students are required to submit all assignments for course completion. Due dates of assignments are specified in the syllabus or course resources. Submitting assignments in a timely manner or making

arrangements in case of emergency demonstrates the student's professional accountability and responsibility. Assignments submitted **late** will have points deducted as follows:

- 1 business day: 10%
 - 2 business days: 20%
 - 3 business days: 30%
 - 4 business days: A grade of zero will be given.
- e. Whole Person Assessment requirements: The College of Nursing, under a university-led initiative, is implementing a Whole Person Assessment system in D2L to evaluate students' achievement of academic outcomes. Each student is responsible for submitting Whole Person Assessment artifacts as described in course syllabi.
- f. For the clinical evaluation process, both the student and clinical instructor are involved. Formal student/faculty clinical evaluation conferences are held at the middle and end of the semester/rotation. Both the clinical instructor and the student complete written evaluations of the student's clinical performance for discussion at the evaluation conferences. Additional conferences are scheduled as needed when student performance warrants such.
- g. Clinical performance is graded on a pass/fail basis according to the clinical evaluation rubric. Students must achieve a passing grade in the clinical portion of the course in order to pass the course and progress to subsequent clinical courses. Additionally, students are required to complete all clinical and sim lab hours as mandated by the curriculum. Criteria for clinical failure include failure to demonstrate achievement of clinical objectives, a pattern of jeopardizing patient safety, and/or failure to follow rules and regulations as stated above.
- h. Evaluation of behavior leading to failure of the clinical portion of a course may occur at any time during clinical hours. Behavior may result in immediate removal from the clinical setting, automatic failure of the course, and/or dismissal from the nursing program.
- i. Students must pass all elements of a course including applicable class, simulation lab and clinical assignments to pass the course.
- j. Other Policies and/or Procedures:
- All work is to be typewritten, unless specified otherwise, and submitted in APA format to the clinical instructor as specified. All students are required to have an ORU email account and Internet access in order to complete course assignments. An email address is available through the University's information systems

C. Course Policies and Procedures

1. Evaluation Procedures

Students who meet the exam requirement and receive a passing grade in clinical lab will have the course grade based upon the criteria listed below.

Assignments	15%
Exams (ATI Community Health Non-Proctored Exam)	40%

- | | | |
|----|--|---|
| | Course Participation | 5% |
| | Final Exam (Clinical Project and Presentation) | 40% |
| 2. | Whole Person Assessment Requirements | |
| | None. | |
| 3. | Other Policies and/or Procedures | |
| | a. | Reliable transportation to and from the clinical agency is essential. Clinical experiences are located in community agencies throughout the greater Tulsa metropolitan area and rural communities. Each student is responsible for personal transportation to the clinical agency and ensuring timely arrival. |
| | b. | All work is to be typewritten , unless specified otherwise, and submitted in APA format to the clinical instructor as specified . |
| | c. | All students are required to have an ORU email account and Internet access in order to complete course assignments. An email address is available through the University's information systems. |
| | d. | All course work must be completed in order to pass the course. |
| | e. | Students are required to pass a non-proctored version of the Community Health Nursing ATI Exam. Results of the exam are worth a portion of the course grade. |
| | f. | AVSON dress code is in effect for all clinical experiences. Neat, pressed, business casual khaki pants, an ORU AVSON logo polo shirt, current ORU AVSON student ID, and close toed shoes are required. ORU AVSON scrubs may be more appropriate at some clinical agencies and may be worn with approval from the clinical instructor. Some clinical agencies may request that a lab coat be worn. Shirts worn under the community polo shirt or scrubs may ONLY be white or navy. A navy or white business casual sweater or jacket may be worn over the approved uniform. Absolutely NO jeans, shorts, tank tops, sleeveless shirts, or clothing with holes may be worn. |
| | g. | All students are required to attend the College of Nursing orientation and dosage calculation exam on Wednesday, August 25, 2021. |

VI. COURSE CALENDAR

This course begins TBD. Each rotation lasts 5 weeks, consisting of lecture, seminar, online exercises, clinical and community project. ATI testing is during Week 5 of the rotation; day and time TBA. The Community Project Presentation (Final Exam) is on Friday at the end of the rotation. Clinical hours vary by agency and may include evenings and weekends.

Monday	Tuesday	Wednesday	Thursday	Friday
Week 1—Roles of the Nurse and Community Assessment				
1445-1635 Course activities	Clinical/ Community Assessment	1445-1635 Course activities	Clinical/ Community Assessment	8:30-10:20 Course activities
Week 2—Cultural Competency and Culturally Sensitive Nursing Care				
1445-1635 Course activities	Clinical/ Community Assessment	1445-1635 Course activities Exam 1	Clinical/ Community Assessment	8:30-10:20 Course activities
Week 3— Health Education; Vulnerable Populations; Healthy Initiatives People 2030				
1445-1635 Course activities	Clinical/ Project Planning	1445-1635 Course activities Exam 2	Clinical/ Project Planning	8:30-10:20 Course activities
Week 4—Health Promotion; Levels of Prevention				
1445-1635 Course activities	Clinical/ Project Planning	1445-1635 Course activities Exam 3	Clinical/ Project Planning	8:30-10:20 Course activities
Week 5—Global Health Issues/Poverty				
1445-1635 Course activities	Clinical/ Project Proposal	1445-1635 Presentation	Clinical/ Project Proposal	Final Presentations 08:30-10:20 Online Activities & Assignments Due
TBD Final Exam
