II. STUDENT LEARNING OUTCOMES

This course prepares students, primarily music majors, for the more advanced study in virtually all areas of the discipline of music. The concepts of the course must be applied to other music courses such as Form and Analysis, Orchestration, Counterpoint, Composition, and Choral and Instrumental Conducting. In a larger sense, the course content is designed to be a vital tool as students pursue any musical activity involving listening, studying from score, creating, or recreating.

- A. To prepare the music major for further studies in such specific areas as advanced harmony, form and analysis, counterpoint, orchestration, and composition.
- B. To have an increased knowledge of Rhythm, Melody, Harmony, Musical Texture and Form.
- C. To enable the student to gain an understanding of such related subjects as music history, applied and laboratory music courses, conducting, and music methods and technique courses.
- D. To understand that as a more advanced level of the subject matter it must be applied throughout and within all courses of music and must be used outside the purely academic situation every time music is heard, studied from score, performed, or created.
- E. To be able to employ appropriate musical skills involving various styles of music:
 - 1. Make appropriate aural and visual analyses of music studied including introductory comprehensive analysis skills.
 - 2. Sightsing tonally-oriented melodies with increasing numbers of chromatics and wider, more disjunct leaps.
 - 3. Use quasi-compositional skills to show basic comprehensive analysis of the music studied, which serves only as a representative selection.
 - 4. Improvise as a solo, duet, or trio performer using ideas related but not limited to post-romantic, impressionistic, and more contemporary theoretical concepts, including ideas relating to pentatonic scales, whole-tone scales, modal scales, planing of chords, quartal chords, secondal chords and clusters, serialized elements and aleatoric ideas.

V. POLICIES AND PROCEDURES

- A. Department Policies and Procedures
1. Students taking a late exam because of an unauthorized absence are charged a late exam fee.
 2. Students and faculty at Oral Roberts University must adhere to all laws addressing the ethical use of others' materials, whether it is in the form of print, electronic, video, multimedia, or computer software. Plagiarism and other forms of cheating involve both lying and stealing and are violations of ORU's Honor Code: "I will not cheat or plagiarize; I will do my own academic work and will not inappropriately collaborate with other students on assignments." Plagiarism is usually defined as copying someone else's ideas, words, or sentence structure and submitting them as one's own. Other forms of academic dishonesty include (but are not limited to) the following:
 - a. Submitting another's work as one's own or colluding with someone else and submitting that work as though it were his or hers;
 - b. Failing to meet group assignment or project requirements while claiming to have done so;
 - c. Failing to cite sources used in a paper;
 - d. Creating results for experiments, observations, interviews, or projects that were not done;
 - e. Receiving or giving unauthorized help on assignments.By submitting an assignment in any form, the student gives permission for the assignment to be checked for plagiarism, either by submitting the work for electronic verification or by other means. Penalties for any of the above infractions may result in disciplinary action including failing the assignment or failing the course or expulsion from the University, as determined by department and University guidelines.
 3. Final exams cannot be given before their scheduled times. Students need to check the final exam schedule before planning return flights or other events at the end of the semester.
 4. Students are to be in compliance with university, school, and departmental policies regarding Whole Person Assessment requirements. Students should consult the WPA handbooks for requirements regarding general education and the students' majors. The penalty for not submitting electronically or for incorrectly submitting an artifact is a zero for that assignment.
 5. Evaluation Procedures
 - a. The course has two main divisions: 1) Analysis, Quasi Compositional

- Skills, and Keyboard; and 2) Sight Singing and Ear Training (SS-ET).
- b. Each division will be evaluated at 50% of the total grade. For any music major to receive credit in the course, a grade of "C" or better must be made in both divisions. If a "C" or better is made in one division, and not in the other, the student will receive a grade of "D" for the course.
 - c. For the Harmony-Keyboard portion of the course Harmony exams will receive 55% of the portion grade. Assignments will be 25% and Keyboard exams will be 20%. For the Sightsinging and Ear Training division of the course each of the four exams will receive 20% of the division grade. The percentage of levels mastered out of 14 possible in the Arrtusi Ear Training software will comprise the last 20% of the division grade. For the composite course score 90% or better will be a grade of "A", from 89 to 80% a "B", from 79 to 70% a "C", from 69 to 60% a "D", and from 59 to 0% an F.
 - d. Pop quizzes are given and add 5% extra to the students' grades.
 - e. Quizzes that are missed are not made up except for excused extended absences. Scores from these quizzes are added to composite score of the appropriate division of the course.
3. Whole Person Assessment Requirements
Sight Singing/Ear Training IV Final Exam
 4. Other Policies and/or Procedures
 - a. For all tests, effort is made to keep optimum objectivity. Criteria are established for subjective parts of tests in an effort to make consistent judgments, and sight-singing tests are tape-recorded with students maintaining a degree of anonymity. Keyboard tests are evaluated according to a set of criteria which are explained to the students prior to administering the tests.
 - b. Credit by Examination: To receive credit by examination, a student must take the terminal exam in all areas of the course, and as many other exams considered necessary to prove sufficient mastery of the course content. The basic score level of 90% an "A", 80% a "B", 70% a "C", will be maintained unless an ORU "Norm" for each grade level has been established. Music majors must earn at least a "C" in each of the two main divisions of the course.
 - c. If possible, excused absences must be presented in an official manner before the absence takes place, but not later than one week after the absence. In the case of extended absences, involved students should provide official notification and excuse of absence upon returning to class.
 - d. Makeup Exam Policy: If any scheduled exam is missed for any reason, it will not be made up unless the instructor is notified in advance. Only extreme emergencies can be exceptions to this rule. If the notification is made in advance and the absence is excusable, a makeup exam will be given at a time agreed upon by the student or students involved and the professor. Makeup exams are always more difficult and/or graded more strictly than are the original exams.
